\*The current ordinance revisions have been approved and entered into the re-formatted Ordinance. Bob will correct the final formatting mistakes that Kyle found and Martha will look into why the Sanitary Services subdivision is still included in the General Regulations. Hopefully the final changes and updates can be ready by Wednesday's Town Board meeting. A signage page should include the signatures of all members of the Town Board and Planning and Zoning. The copy of the Ordinance on the website should include the signed signature page. Printed copies should be available for all p&z members and at least one copy made to be a permanent copy in the Town Hall. Copies made for township residents should have a cost reflective of time and materials to print.

\*Additions to the current zoning map could/should include: public lands (hunting lake access, parks), high water marks, county ditches, bike trail, feedlots, and current parcels/lots.
